HOOPS AT A DISCOUNT.—The late heavy  
thunderstorm with which we have been  
visited, and the practical effects of these  
visitations, so plainly seen and felt about  
us, has had the very natural effect to  
excite a feeling of uneasiness in some  
people on the approach of a storm, and  
the people on the approach of a storm, and  
the people on the approach of a storm, and

A WISCONSIN FARM.—Some three years  
ago, Senator Durkee sold his farm (1,200  
acres) in Dane county, to a Mr. D. L. Forest  
for \$25,000. The hard times came on soon  
after, and the farmer was looked upon. But  
this year promises to make it all right. Mr.  
Forest has about one thousand acres in  
grain; eight hundred to wheat, and the  
rest to oats, corn, &c. He has now sixty  
hands and eight rapers at work, cutting  
and securing his wheat. The yield, at a  
moderate estimate, will be twenty-five  
bushels. Of other grain there will be  
some ten thousand bushels more. The  
gross value of the products of the farm this  
year will be nearly, or quite equal to the  
purchase money.

Who Bins Next.—Judge Larrabee has  
already put in his bid for a re-nomination  
for congress by the democrats, by writing a  
letter in which he takes ground in favor of  
appropriating the lands granted to this  
state by congress for the construction of  
railroads, to a settlement of the farm  
mortgage, and to the La Crosse and Mil-  
waukee R. R. Co., and that he will at the next  
session of congress aid in the passage of a  
bill modifying the terms of said act, in such  
a manner, that the avails thereof may be  
applied to the state for the payment of  
such farm mortgages. The books will not  
be closed until the opening of the dem-  
ocratic convention, on the 15th inst. At that  
time, Judge Larrabee will make his move.  
To prevent any misunderstanding  
however, they should not all speak at once.

SENATOR CRITTENDEN RESUKING THE  
DISUNIONISTS.—The following is taken  
from Senator Crittenden's recent speech at  
Louisville:  
"But it is said Mr. Lincoln's election will  
consume a dissolution of the Union. That  
he will not be permitted to take his  
seat—How is that? If a man is elected  
by a majority of the people, in a fair and  
legal way, though you voted against him,  
would you say he is entitled to his seat?  
Would you not consider the power very  
arbitrary that would undertake to keep him  
out of his office? You have a right to  
elect him or any one else, and if a man is  
constitutionally elected, President of the  
United States, shall a minority of the  
people start up and say, 'We will make a  
revolution; we will, by force of arms resist  
it, and drive him out.' Is not that a destruc-  
tion of all government? The majority  
must, of necessity, rule all republics, and  
if you do not like the law of the majority,  
set aside all free government, and go to  
some place where you will have no election,  
where hereditary rule shall take the place  
of a elective government. Who will say  
that if Mr. Lincoln or anybody else is  
constitutionally elected to the Chief Magis-  
tracy, he shall not take his seat? Have  
we come to this? If so, let us change the  
whole government, and let the minority  
rule, though even then would not the ma-  
jority men object to the election of a man  
by the minority?"

DEPLORABLE CONDITION OF SOUTHERN  
CROPS.—We continue to receive, says the  
New Orleans Bulletin, very discouraging  
accounts of the condition and prospect of  
the crops in the south. Indeed, if these  
accounts be not a little overdrawn, our  
planting interests have received such a  
blow as must entail much distress upon  
many of our planters in our section. Not  
many of our recollections has vegetation in  
the southern states been visited with such  
extraordinary weather.

In many sections, no rain has fallen for  
fully three months. The nights have been  
hot and dewless, while fiery blazing suns  
and withered blasts of heated air, with fre-  
quent hurricanes, and, in some sections,  
storms of rain and hail, will render im-  
possible for many a year the days of the sum-  
mer of 1859. Such has been the weather  
south, and the result is seen in cornfields  
so completely burned up, as, in many in-  
stances, not to afford even fodder for cattle.

Cotton, too, in several sections, is re-  
ported as having ceased growing, and is now  
prematurely opening at the top. As re-  
marked in a previous article, the intelligent  
condition of vegetation subjected to  
such blighting weather. For ourselves, we  
confess our inability to arrive at a general  
conclusion as to the quantity of corn saved,  
and the relative proportion of the coming  
cotton crop to those of previous years.

WON'T GO IT.—The Rochester Union ex-  
presses the sentiment of the following  
paragraph of a democratic in the following  
paragraph. A fusion ticket would sink like  
a cannon ball in water—  
For one, we are irreconcilably opposed to  
the "trade." Tens of thousands of  
democratic in the state would scornfully re-  
pudiate the whole ticket if made up of half  
regular and half irregular. They would  
have no sympathy with any such coalition  
of "jobbing" and "unqualified" "bargain and  
sale" men. We are frank to say that we should  
view more than we are accustomed to  
change them before we could even vote for  
any such mongrel product.

The German Diet, that we hear so much  
about, we take to be sourkraut, Schwartz  
cheese and lager beer.

Douglas vs. Douglas and the Missouri Compromise.

From Douglas' Speech in Springfield, Ill., 1859.

The Missouri Compromise had its origin in the hearts of free men who desired to reserve and perpetuate to the people of the United States the right of self-government. It was a compromise between the rights of the people of the United States and the rights of the people of the Missouri Territory.

From Douglas' Speech at Springfield, Aug. 3, 1860.

My friends, I am here to-day, as I have been for many years, to tell you the truth about the Missouri Compromise. I am here to tell you that it is a compromise between the rights of the people of the United States and the rights of the people of the Missouri Territory.

How Non-Intervention Works.

"I believe that it is the right of the people to demand that the duty of Congress to extend protection of persons and property of every kind (including slaves) in the territory during their territorial state."—Frederic T. Johnson.

From Douglas' Speech in the Senate, May 16, 1860.

"It is part of the history of the country that under this doctrine of non-intervention, the doctrine that the people of the United States have introduced and protected slavery in the whole of that territory. The only change which has been made is a change of territory into slave territory, and a change of territory into slave territory."

A CARD.

Editors of the Gazette:

J. A. Sleeper, Esq., having received a majority of the delegates in this county and having conducted the canvass as a high minded and honorable gentleman should do, it is my earnest desire that he should be presented to the convention at La Crosse as the unanimous choice of the republicans of Rock county. I therefore take pleasure in recommending him to the support of all my friends, to whom I return my most sincere thanks for their generous aid in this canvass, with the hope that he may receive the nomination and their hearty support at the polls.

J. M. BURGESS.

Janesville, August 20th, 1860.

The withdrawal of Mr. Burgess, who, with Mr. Sleeper, divided the congressional delegation from this county, happily ends a division that seemed likely to prevent the nomination of any candidate from "old Rock." Mr. Burgess, if a zealous contestant, is a true republican, and yields cheerfully when the fortunes of a contest are decided against him. The promptness and frankness with which he now retires in favor of his successful competitor will increase the good feeling ever entertained towards him by his party throughout the county and commend him to the approbation of all who desire harmony and union as an essential constituent of party strength.

The action of Mr. Burgess, however, not only places him in a commendable position before the republicans of the county, but it relieves the contest for a nomination at La Crosse, so far as this county is concerned, from the embarrassment of a divided delegation and divided action. Mr. Sleeper will be presented to that convention by a united delegation and urged as the candidate for Rock county. If Mr. Sleeper shall be selected by that convention as the standard bearer in the approaching election, not merely Rock county, but the entire district will have good reason to be well satisfied. Ample qualified for the important duties of a representative in congress, one of the earliest and most efficient actors in the formation of the republican party, well and favorably known throughout the district and state, his nomination would be hailed as that of a strong and true man in a district which has acquired a national reputation for its republican character and majorities. We are gratified at so fortunate a termination of a local contest that once threatened to produce divisions, (and from which we have so signally withdrawn our journal), and hope that the action of the convention at La Crosse may be such as to gratify the many republicans who would rejoice in Mr. Sleeper's nomination.

GOOD FEELING.—The following, from the Milwaukee Inquirer, is an indication of the good feeling existing between the rival factions of the democracy:

BUFFET!—We are constantly receiving letters from abroad asking if there is to be a Breckinridge and Lane ticket in this state, and saying that the Douglas men are assuring the people that the thing is not thought of. This game of bluff and lying will not win. Let our friends not forget the mass meeting to be held in this city on the 4th of September, to put up the Breckinridge and Lane ticket.

THE BEAVER DAM CITIZEN.—There were shipped from Chicago last Saturday, 247,893 bushels of wheat, 136,209 bushels of corn, 1572 bushels of oats and 1773 barrels of flour—making a total of 389,006 bushels.

Bad doctrine is like bad doctrine—it puts patience to the test.

## Consistency.

Jack Bonner, who is now editing the Horicon Argus, is taking to task "Mr. Holt, of the Janesville Gazette," for consistency, and declares that we supported Gen. Scott and the fugitive slave law. It is very true we supported Gen. Scott, and we are willing now to turn to the record and see what we said when a whig national convention attempted to make the fugitive slave law a plank in its platform. In the Gazette of July 3, 1852, when we raised the name of Gen. Scott, we said:

In reference to the "compromise plank," we have only to say that the fugitive slave law is no less objectionable to us now than it ever has been, and that "time and experience" have already "demonstrated [to us] the necessity of further legislation" on the subject. We shall acknowledge no power to control our convictions or silence our expression of them upon this measure. We will stand by the checks and balances, and we will not disclaim the compromise as a whig measure. The responsibility of its introduction, advocacy and passage rests upon a local congress. If southern whigs choose to sustain it, we shall let them do it. We are not bound to follow them in a purely sectional measure, and we shall not.

So much for our record! But, if it were different, with what grace could Mr. Bonner call us to account for consistency? Mr. Bonner was then editing the Racine Advocate, supporting Hale and Julian as free soil candidates, and writing as zealously against the fugitive slave law as he is now supporting the bastard democracy of Douglas. He has changed, and changed for the worse, while we are still opposing the same law we then condemned. Jack must take his observations better, or he will prove an unskillful navigator through the perils of a pro-slavery voyage.

A correspondent of the Albany Argus writing from Chicago, says that Douglas will carry Illinois by 6,000 majority, and Indiana by 17,000 majority. Lincoln will get Wisconsin by 3,500. The correspondent of the Argus is too modest by half in regard to Illinois, and November will show that he is just about as far astray in his estimate of the vote of Wisconsin. At the late judicial election, Wisconsin went democratic by about 500 majority. "Revolutions never go backward."—Chicago Herald and Times.

Exactly such boasting as this was indulged in before the Fremont election. Then, the democracy was just as "exultant" as now, and predicted the gain of republican states just as they do now. They were just as near the truth then as they are now.

"Stout" as a Reporter.—A. F. Pratt, of Waushara, attended the Monroe meeting as a reporter for the Milwaukee News. He starts off his report with a flaming head—"Four acres of Douglas men in council." "Green county alive for Douglas." "Everybody for Douglas." He says "a special train left Janesville at 10 o'clock with ten passenger cars." "At all way stations, (says this truthful reporter), we received large accessions, and when we arrived at Monroe, the cars were nearly all filled." He pronounces the meeting the largest he ever attended in this state, and made the remarkable discovery that "most of the Germans in Monroe voted for Fremont, while now there is but one Lincoln man among them." Among the "distinguished men present (says 'Stout') was our old friend Bostwick O'Connor, Esq., of Beloit, and his son, who, by the way, is a perfect 'chip of the old block.' Also, Ike Woodie, Dan C. Brown and James Niel of Janesville, and our friend Rockwell of Beloit."

This Indian story-teller is emphatically a fit subject for the state historical society. No relic in its extensive collection would possess half the interest attached to such a rare specimen of truth and candor.

EXULTANT.—The Chicago Herald and Times takes "for true" the report of the Milwaukee News as to the meeting that nominated J. E. Arnold for congress, the 15,000 persons present, and all, and exclaims—"The spirit of democracy in Wisconsin is determined and exultant." So we thought when we saw the ten passenger cars leave this city last Thursday for Monroe. Can't the Herald get up a report of that meeting, and draw from it an augury of the redemption of Wisconsin?

WHAT A DEMOCRAT SAYS.—The Madison Argus says—"The Douglas demonstration at Monroe did not meet the expectation of its friends." No: over one thousand persons were in attendance, and a citizen of Monroe told us yesterday that many of them were republicans, who went for the "ride."

A friend of ours, and a strong Douglas man, who was in the "everybody for Douglas" delegation that went from this city, told us that "he did not believe that there were a thousand persons present" at the "four acres" demonstration.

FATAL RAILROAD ACCIDENT.—Last Monday, while the freight train of the Chicago & Northwestern railroad was stopping at the Junction station, a passenger car, containing a tailor by trade, belonging to Watertown, got off the passenger car for some purpose or other, but before he returned the train was in motion, and in attempting to jump on one of the flat cars he missed his hold and fell between them, and melancholy to relate, three of them passed over his body, killing him instantly.

JEFFERSONIAN.—The Milwaukee Sentinel has a very exaggerated and erroneous report by a correspondent of this accident, in which it is stated that the conductor, in answer to a question as to the nature of the accident, replied,—"It is nothing; only a man killed. Go ahead." Such statements ought not to be made without the most absolute proof of their correctness, and it made ought to be corrected when denied, as this is, we understand, by competent authority.

GREEN COUNTY DELIGATES.—A letter to the editors from Albany, says that Walter Wescott and J. H. Warren were elected, last Saturday, delegates to the La Crosse convention from the eastern district of Green county.

THE VALUATION OF REAL AND PERSONAL PROPERTY in the city of Portage is \$622,731.33. The assessment this year of personal property, as compared with last, shows an increased valuation amounting to \$84,387.35.

SOME OF THE PROSPECTIVE RESULTS OF LINCOLN'S ELECTION.—Should Lincoln be chosen president, there will be a sad and mournful procession of disappointed officeholders from the various departments. Protected as Mr. Lincoln would be, from the avalanche of southern applications, which has rolled in so terribly upon every new president since the organization of the government, and no doubt rescued by patriotic resignations on the part of those who declare that his election will dissolve the Union, it will be a most significant spectacle to see men who have grown gray in office, who are used to the checks and balances, and who of that great circumscription system which has become a vast evil here—turning their trembling steps to the homes they so rarely seek, and to the vocations they have so long abandoned. We shall then ascertain whether certain men are indispensable in the management of public affairs—whether the Union will collapse like a great balloon, when the gas of the official free-eaters is withdrawn from Washington, and whether new men that this republic depends upon no particular individual, and that even a change, no matter how drastic and purging it may be, may not save a billious and constipated system.

The venerables who carry gold causes along the avenue every day at 3 o'clock P. M., at about \$1,800 a year a-piece, and who have grown gouty before dusty desks and in cozy surgeries, realize the possibility of a new regime. Their annual office; their idea of the destruction of the democratic party is the receipt of a yellow envelope enclosing a polite request to leave, and their only idea of a violation of the constitution is the apprehension that the places which know them now may, after the 4th of March, 1861, know them no more forever.—Wash. Cor. Phil. Press.

FARM MORTGAGES BEING SETTLED.—The Milwaukee Wisconsin of Thursday, contains the following:

In spite of Farm Mortgage Leagues, and Home League newspapers, and the many insurrectionary threats made by different farmers, mortgages are being amicably settled up in this city, between the mortgagors and the attorneys of the holders. We hear of one that amounted to about \$800, that was settled in full a few days since. Generally, however, there is a compromise of from 30 to 50 per cent. A day or two since another to the amount of about \$800, was settled at 55 cents on the dollar. There is an attorney in the city which holds quite a number of them for eastern parties, who is instructed to compromise if he can at 50 cents on the dollar. This is the lowest compromise we have heard of, and it is certainly an exceedingly fair one.

EMIGRATION SETTLING WESTWARD.—Hundreds of emigrants are continually arriving in our city, bound for the interior to settle on our unoccupied lands. We learn that many thousands are now on their way from Germany to take up their abode among us. The immigration to more than that of the last three years combined. The arrivals in New York show that a large majority of the emigration this year is bound for Wisconsin. We learn that our German citizens throughout the state are in receipt of letters from their friends in all parts of Germany acquainting them of the fact that extensive arrangements are now being made in all the German states to emigrate to Wisconsin next year. The news of our abundant crops has reached Germany, and great numbers of the Old World are coming to this land of promise and plenty. We say welcome, thrice welcome, to every honest son of Germany.—Milwaukee Sentinel.

The Murfreesboro (Tenn.) Telegraph contains the following communication:

Mr. Editor: In casually looking over an etymological dictionary, my attention was arrested by the name of Breckinridge, a name famous just at this time. I was startled to find that the Saxon derivatives of this name mean "a broken house." Is it not "rather ominous" that a man of this name should be the leader of one wing of the broken and divided house of democracy?

PENNSYLVANIA.—The Douglas state committee of Pennsylvania have decided by the vote of about nine to ten to reject the regular democratic electoral ticket nominated before the meeting of the Charleston convention, or so much thereof as is not openly for Douglas and Johnson. They will proceed to nominate a new ticket, selecting their own friends from the regular ticket, and naming others for the places filled by the Breckinridge men. Of course the other faction will be compelled to pursue a similar course. Meanwhile things are getting somewhat "mixed" as regards the democratic state ticket.

EXHIBITS OF AN UNPOPULAR PREACHER.—The Rev. Bryan King left St. George's parish on Wednesday to the great satisfaction of his parishioners. During the evening of that day the delight of the inhabitants was expressed by an immense gathering of people, who formed into a procession, headed by a band of music and several banners, all of which bore inscriptions showing how distasteful to the public mind the mode of celebrating divine worship by Mr. King had been. The foremost banner, which was painted white, had written in large prominent black letters the inscription "Flight of the Devil." Full of puseyism in St. George's-in-the-east. The band kept playing from street to street, "Britons never shall be slaves," and other airs, until a late hour, when the vast crowd quietly dispersed.—Now that they have achieved their wishes, no doubt the parishioners will readily cleanse and repair their noble church, which for months past has been in a frightful state, occasioned by the disturbances, and make it fit for public service.—London Times, July 27.

LITERARY.—The New Haven Palladium received the following bill and letter for a "composition" which had gone into the waste paper basket:

Bill for Palladium: To \_\_\_\_\_ \$10.00.  
To 2 Compositions, \$10.00 each. \$20.00.  
Received Paid.

I have been delayed in waiting to hear from you and of course I have long to hear that I send you the Bill and I hope to hear from you by to-morrow morning. I have composed and written a composition on the "Bridal Robe" which I consider worth one thousand Dollars. Will you be kind enough to send the amt of my Bill and copys of the two compositions. Through the Post of fee.

GETTING THE WORTH OF MR. MONROE.—The story is told of Fanny Fern, that stopping at the office of a Philadelphia hotel to pay her bill, on the eve of her departure, she found a charge for the breaking of her toilet set. She admitted the breaking of one piece, and desired to pay for that and no more. The price of the whole set, however, was demanded, because the "door" broken. The carriage was at its no time the train stop to start. For discussion, it is thought, but enough for action. Directly the carriage to wait a moment, she went directly back to her room, and taking up the poker, incontinently broke every remaining piece of the set.

THE EXCURSION FROM MONROE.—About 650 children and citizens of Monroe, with about 200 from Janesville and other places, composed the party that sailed on the steamer yesterday. Among the Monroe people were many who had never before had a glimpse of Madison, all of whom expressed themselves highly delighted with our city and its surroundings.

On the arrival of the party at the park, they were greeted by many of our citizens, and the members of the Band of Hope mingled with the children from Monroe, and sang one of their cheering temperance songs. The crowd being seated, they were addressed by Gov. Randall, Treasurer Higgins, Deputy Supt. Craig, and Rev. Mr. Fuller of Monroe. The remarks of each gentleman were happy and appropriate, especially those of the Governor, and were well received. Everything passed off pleasantly—and there was nothing said or done that could give offence to even our correspondents.

A fine brass band from Brodhead accompanied the excursionists, and discoursed excellent music, and the children were delighted.

The excursionists left for home at 4 P. M., in the best of spirits, and well pleased with their visit and reception here, and carrying with them the best wishes of our citizens.—Madison Argus.

ROW ON THE GREAT EASTERN.—At Annapolis, complaints innumerable have been lodged against the crew of the Great Eastern on account of the rudeness displayed and the want of proper respect for the feelings of ladies. On Thursday, one of the John Bulls was knocked down on the deck for his insolence by the blow of a cane in the hands of gentlemen of South Baltimore. On Friday, one of the officers was observed practicing rudeness towards two ladies, whereupon Washington Goodrich knocked him down and administered some well merited kicks.—Richmond Enquirer.

The knocked down and bed-ridden Englishmen will go home with ideas of the "physical degeneracy of the Americans" quite different from some of their stay-at-home brethren.

State elections are yet to be held before the presidential election in November as follows:

Presidential election in all states, on Tuesday, Nov. 6.

IMPORTATION OF STINGLESS BEES.—Mr. A. O. Moore of New York city, who went to Central America last year on account of his health, has just returned from Guatemala, and has brought with him two swarms of the stingless bees common to that country, which he has given in charge of Mr. Parsons of Elmwood, who will propagate them for the agricultural department of the state office, which will in due time distribute them, if it is found that they can be kept in any part of the United States. These bees are of two varieties, one large and one small, and both quite different in their habits from the honey bees common with us. For one thing, there appears to be but two classes—workers and queens.—The largest class are about the size of our common bees, the queen being much larger, and while laying eggs appears very clumsy, and unable to fly. The honey is deposited in the shape of capsules, more than half the size of hen's eggs, fastened to a plate of wax only one side, and sometimes arranged quite horizontal in tiers one above another. The honey is considered particularly delicious, but is not stored in as great quantities as with our bees. As these are stingless, they are often kept upon the same familiar terms as paddy's pig, about the house. The hive most commonly consists of a hollow log, and that is hung up in the but that shelters the family of bees, and under a projecting thatch of the roof. It is to be hoped that the experiment of their introduction will prove successful.

EXTENSIVE GAMBLING OPERATION.—The New York correspondent of the Philadelphia Press under date of August 2d, says: "Stories have frequently been told of men who have gone into faro banks, won \$3,000, and \$10,000 in a night, and walked off with the property. An instance of this kind has just been told us by an inspector of police. A few evenings since, a group of men, of whom it was apparently no more than eighteen years of age, went with a friend to the most extensive of the gambling halls in this city. After partaking of the sumptuous supper always served at those places, he commenced playing faro, and in a short time, by boldness and luck won \$10,000. He asked the banker to change his 'chips' for money, which was done, and he went away, not stopping a moment or uttering a word. He has not entered the place since, nor has he been seen in the city. It is understood he left for home in the morning. He is said to have exhibited no trace of agitation, no elation at the tide of his success, and in his face there was no trace of the excitement which the peculiar expression so easily features in the face of the professional player. That this young man will become a habitual gambler can scarcely be doubted. So large a sum so easily won will be sure to lure him on again."

NEW AND DANGEROUS CONVENTION.—E. L. Tinkham & Co. Bank Note Reporter Extra, to-day, says that a new and dangerous counterfeit bill has just made its appearance, and so well executed as to deceive any one who is not on a sharp lookout. It will no doubt get a large circulation, as many of them have already been passed on our merchants. Look out for them.—Bank of North America, Superior City, Wisconsin. \$5's, vignette, man on horseback, flock of sheep and a mill in the distance, on lower right corner Indian seated, on left corner soldier in armor, above, the genuine have of girl on right, right, and left corner holding a shovel and lighting his pipe. Genuine bill is red tinted and signed H. W. Hunter, Cash, and T. M. Turtay, V. President.

WHAT THEY DO IN LOWELL.—In Lowell there are two corporations, with an aggregate capital of \$15,000,000, owing fifty factory buildings, containing over four hundred thousand spindles and twelve thousand looms, with other machinery in proportion; employing eighty-seven hundred women and forty-two hundred men; manufacturing yearly more than one hundred million yards of cotton cloth, twenty-five million yards of calico, twenty million yards of bleached and dyed goods, and a half million of woolen cloths, and a half million of carpets. They also make a shir of cotton cloth, very wide and two hundred cotton long, made daily! Enough in a year to get twice round the globe, with ends five thousand miles long to the west.

NEW STEAMBOAT LINE.—A new line of steamers, to run between La Crosse and St. Paul, in connection with the La Crosse & Milwaukee railroad, has been established, and will be in operation in the course of the week.

## REPORTED FOR THE DAILY GAZETTE.

BY WISCONSIN STATE TELEGRAPH LINE.

Office in Union Passenger Depot.

NEW YORK, August 20.  
Important intelligence is received from China by way of Europe. The celestial government is said to be in a very disordered state, owing to distractions. The insurrection against the rule of Peking, the British fleet had not left Hong Kong owing to adverse winds on the day the mail left, but a change had occurred and the fleet was to leave immediately.

CHARLOTTESVILLE, Va. Aug. 18.—10 P. M.  
The correspondence between the two conventions shows that all overtures for a compromise were rejected. Senator Mason in his speech to-day declared that the path marked out by Douglas leads directly to the abolition camp. The speeches of Senators Mason and Hunter have been reported for publication. The greatest enthusiasm prevails. Convention adjourned sine die.

STANTON, Aug. 18.—10 P. M.  
The conference committee have been discharged and the proposition for a compromise denounced. A resolution was adopted that the electoral vote of Virginia would be cast for any one who can defeat Lincoln. Great enthusiasm prevails.

CINCINNATI, Aug. 13.  
Last night at 8 o'clock, Charles R. Brown, United States commissioner, was shot dead by George J. Cadwell, of the firm of Alfred Wood & Co. Several months past bad feeling has existed between the parties in regard to adjustment of a legal claim. Brown called at Cadwell's house, forced his way into Cadwell's private chamber, a scuffle ensued, when Cadwell shot Brown through the body. He immediately surrendered himself to the authorities.

WASHINGTON, Aug. 16, 1860.  
MR. BRECKINRIDGE DOES NOT WITHDRAW. Stevens, Chairman of the Breckinridge and Lane national executive committee, to-day received a letter from Mr. Breckinridge of such a character as warrants him in giving an emphatic contradiction to all rumors of his desire to be relieved from his position as a candidate for the presidency.

The committee have just begun sending out an address to the democracy and people of the United States, mainly in reply to that of the Douglas executive committee. DOUGLAS IN PENNSYLVANIA.—The Douglas national committee here were quite anxious concerning the action of the straight out Douglas men convened at Harrisburg yesterday. But to-night the New York papers bring the gratifying intelligence that the idea of fusion with the Breckinridges was repudiated.

THE MARKET.  
New York, August 18.  
Flour market dull and prices tend lower. Sales 1100 barrels 5,10a5,20 extra state, 5a 5,10 super western, 5,10a5,20 common to medium extra western, 5,30a5,40 inferior to good shipping brands extra H. H. Ohio.—Canadian flour dull and declining, sales 420 bbls. 5a5,55 super, 5,50a7,50 extra. Wheat market steady, with fair export demand. Sales 8000 bushels 1,25a1,27 winter and red western.

MR. SCHURZ.—The Cincinnati Gazette says—"Carl Schurz, the celebrated German orator of Wisconsin, is now engaged in filling a series of appointments in Indiana, under the direction of the state central committee. He has completed those in northern Indiana, and is progressing southward as fast as practicable. It is contemplated to give him as many appointments in the southern part of the state, especially in the first, third and fourth districts, where is a large German element hitherto almost untouched by the revolution—the central and northern regions—but now reported to be stirred, and urged to abandon party associations that have compelled them to support a policy directly hostile to their own interests. Mr. Popp, a German speaker of Richmond, has also been engaged to canvass portions of the state, and is now 'actively at work.'"

MARRIED.  
At the residence of Mr. Edgar H. Wiley, Janesville, Ohio, on the 18th inst. MARY ANN FREDWAY to Miss MARY E. WILSON, both of Madison, Wisconsin. Many have many friends here, who will wish her the happiness possible for us to enjoy on earth. Her other life is remembered too. Her friends will be glad to hear that she is so well, and we hope she may never regret having taken that route.

**GREEN COUNTY DELEGATES.**—A letter to the editors from Albany, says that Walter Wescott and J. H. Warren were elected last Saturday, delegates to the La Crosse convention from the eastern district of Green county.

The valuation of real and personal property in the city of Portage is \$622,731.32. The assessment this year of personal property, as compared with last, shows a decreased valuation amounting to \$94,887.35.

The story is told of Fanny Fern, that scolding at the office of a Philadelphia hotel who, to pay her bill, on the eve of her departure, found a charge for the breaking of her toilet set. She admitted the breaking of one piece, and desired to pay for that and the price of the whole set, however, was demanded, because the "set" was broken. The carriage was at the door—the train soon to start. There was no time for discussion, hute for thought, but enough for action. Hastily paying the entire demand, and directing the carriage to wait a moment, she went directly back to her room, and taking up the poker, incontinently broke every remaining piece of the set.

**Republican Congressional Convention.**  
SECOND DISTRICT.  
A Republican Convention for the Second Congressional District in the State of Wisconsin, will be held at the city of La Crosse, on Wednesday the 23d day of August, 1880, at 12 o'clock M., for the purpose of nominating a candidate for member of Congress of said district, to be supported at the next general election.  
Each assembly district will be entitled to two delegates in said convention.  
The several assembly district committees are requested to take measures for the appointment of delegates to said congressional convention, from their respective districts.  
DAVID ATWOOD, Dist. Com.  
NORMAN EASTMAN, Dist. Com.  
G. O. CHANDLER, Dist. Com.  
Madison, June 23, 1880.

For the Daily Gazette.  
To Firemen.

The following circular has been issued in conformity with the expressed wish of several companies in different parts of the state. The reluctance with which the state fair has offered premiums to fire companies, together with the fact that the presence of firemen has attracted thousands yearly to exhibitions of the state agricultural society, and the fact that the premiums have not been commensurate with the benefit which has accrued to the society thereby, induced the department of this city to make a move towards the organization of a "Firemen's State Association."

The object of this association is to provide for an "annual tournament." Prizes will be gotten up by the association to be awarded to engine, hose and hook and ladder companies. That each annual tournament will pay all the expenses, pay for the prizes to be awarded, and leave a handsome sum in the treasury of the association, no fireman will doubt; at least such has been the result of similar associations in other states. An association of the nature proposed will place all companies on an equal basis, and companies winning prizes are sure of obtaining what they contend for.

It is proposed to stand independent of all other societies, to hold their tournaments at a time of year better suited than when fairs are usually held, to have the management of them in those who fully understand firemen's rights, and to adopt their own rules and regulations by which to be governed during trials.

It is an unquestioned fact that these tournaments, if rightly conducted, will attract thousands to witness the trials of skill and superiority, and this, while providing means for paying expenses, will be the means of greatly improving the alertness and efficiency of the several companies when called to duty at home.

This circular, which is intended for all engine, hose, and hook and ladder companies in the state, (although some may have been overlooked in their distribution,) reads as follows:

"At a meeting of Water Witch Engine Co. No. 2, of this city, the undersigned committee were appointed to correspond with the several fire companies of the state, to make an effort to form a State Association, together with an Firemen's Annual Tournament."

"Our views of the matter would be for the several companies to appoint one, two or three delegates, to meet at Milwaukee, Janesville, Madison or Racine, to perfect arrangements."

"Your correspondent is informed that if replies favorable to this object are received, that a meeting will be called at an early day, and if deemed advisable by the delegates (it is desired that they be instructed in regard to it,) a tournament will be arranged for this fall—perhaps September."

The committee, John C. Spencer, Wm. H. Sargent and Henry Hemming, will pay proper and immediate attention to all replies by letter.

Papers published where a department exists, will confer a favor by copying.  
Yours, in behalf of the enterprise,  
W. H. H.

**Mr. Coddling's Address.**  
Mr. Coddling will speak in this city next Wednesday. Mr. C. was formerly a resident of this state, and widely known as a very able popular speaker. He makes a speech easy to listen to, but very hard to answer. He has already spoken in several places in this state, and every where he has spoken with great power and effect. Those who hear him may be assured they will listen to something well worth hearing.

**Accident.**—We learn that while Mr. George Nickerson was yesterday exercising a young horse on Royce's race course he was thrown from the horse and very severely injured. The particulars we have not heard sufficiently to state them.

**Agricultural Notice.**  
The regular quarterly meeting of the Rock County Agricultural Society and Mechanics' Institute, will be held at the Court Room in Janesville, on Monday, September 3d, 1880, at 10 o'clock A. M.

JERRE BLOUNT, Sec'y.

**REPUBLICAN CLUB MEETING.**—The Janesville City Republican Club will meet Wednesday evening next, Aug. 23d, at half-past 7 o'clock, at the court room. The meeting will be addressed by Mr. Ichabod Coddling of Illinois, one of the most effective speakers in the west. Let us give him a full house. Democrats are invited to attend.  
R. B. TREAT, Pres.  
A. A. JACKSON, Sec'y.

**FIRE.**—The dwelling of Charles Brown, on Franklin street, was burned about 1 o'clock yesterday morning. The flames were first seen in the roof, and progressed so rapidly as to defy all efforts to arrest them. All the furniture was saved. The loss, though comparatively small, is severe on Mr. Brown.

**IN** making a notice that Mr. Pelage is ready to receive orders for tuning pianos, the place where orders may be left, was omitted to be stated. Mr. P. can be found at Bootman's music store.

As it should be?—Mr. Comstock, police justice, informs us that he intends on all occasions to exclude boys from such examinations as were held before him last week. If there is any failure to do so, it is when he is so engaged with the examination that he does not notice the presence of the boys, or, when in the commencement, no boys are in the room, and he forgets to give the order. This is as it should be, and if there was power to exclude everybody but the parties, counsel and witnesses, the rule would be still better.

We are inclined to think some of our citizens misunderstand our allusion to that matter, and infer because we condemn the evils of a public examination we are in favor of neglecting to take any notice of or punish the vice. This opinion, if entertained, is a mistake. The evil is too great to be at any time overlooked, and very frequently too public not to be punished, even if it requires such examinations as usually attends an attempt to bring the offenders to justice. We wish, when an examination is necessary, that it may be conducted with as much privacy as is consistent with a fair trial of the accused. If, in any case, mild means can protect the community and cure or abate the evil, it may be policy to adopt these means. We should be justly entitled to the condemnation of every virtuous and good citizen if in any manner we encouraged or sustained so flagrant an offence not only against morality but the health and well-being of its victims. We only desire the best way of eradicating it, and we are not disposed, in any case, to be censorious about the means adopted by those who are engaged in the labor of banishing it. The suggestion as to the publicity of an examination we think is a good one, and would like to see it adopted as far as it can be.

**Life Insurance.**  
Those desiring this useful and cheap protection for their families, can secure it in our Wisconsin company. It has already become, in reality, a state institution, having agents and patrons among the best business men in all the principal towns in the state. It is no longer a matter of doubt that life insurance can be conducted as well in Wisconsin as in Connecticut or any other eastern state.

While duty demands that men should insure their lives, it also demands that they should keep their money for investment at home. Confident that our success has been more than equal to that of the most "unprecedented" we would cordially invite all our citizens to call at the office, southwest corner of Main and Wisconsin streets, and examine for themselves.

A. W. KELLOGG, Secretary.  
Messrs. Phipps & Harlow, produce dealers, and Capt. Geo. C. Dodge will receive applications for insurance in this home company, and will also be happy to give information as to the conditions thereof, to any one desiring to be informed, in Janesville.

The attention of the community is respectfully called to the following features in connection with this Company:

First—By insuring in this company, the advantages of a Mutual Insurance Company are obtained, with the additional advantage afforded in the security given by an ample and reliable Cash Capital—a feature not presented by ordinary Mutual Fire Insurance Companies. The dividends to customers, already declared, are as follows:

1st Division to Policy-Holders, 1857, 832 3/4  
2d " " " " 1858, 69 " "  
3d " " " " 1859, 50 " "  
4th " " " " 1860, 45 " "

Second—The security given, which is already large, will constantly increase with each year of successful operation. This is evidenced clearly in the following statement, showing the position of the company in 1880, since the new system was adopted.

July, 1880, Net Assets of the Company, \$570,202 44  
Assets, July 1, 1880, 903,208 28  
Liabilities, 14,732 44

Third—The insured incur no liability whatever, while obtaining these advantages of superior security and cheapness.

## Consistency.

Jack Bunker, who is now editing the Horicon Argus, is taking to task "Mr. Holt, of the Janesville Gazette," for consistency, and declares that we supported Gen. Scott and the fugitive slave law. It is very true we supported Gen. Scott, and we are willing now to turn to the record and see what we said when a whig national convention attempted to make the fugitive slave law a plank in its platform. In the Gazette of July 3, 1852, when we raised the name of Gen. Scott, we said:

In reference to the "compromise plank," we have only to say that the fugitive slave law is no less objectionable to us now than it ever has been, and that "time and experience" have already "demonstrated" to us the necessity of the legislation "on the subject." We shall acknowledge no power to control our convictions or silence our expression of them upon this measure, whenever we shall deem it expedient or proper. We entirely disclaim the compromise as a whig measure. The responsibility of its introduction, advocacy and passage rests upon a locofoco congress. If southern whigs choose to sustain it, we shall let them do it. We are not bound to follow them in a purely sectional measure, and we shall not.

So much for our record! But, if it were different, with what grace could Mr. Bunker call us to account for consistency? Mr. Bunker was then editing the Racine Advertiser, supporting Hale and Julian as free soil candidates, and writing as zealously against the fugitive slave law as he is now supporting the bastard democracy of Douglas. He has changed, and changed for the worse, while we are still opposing the same law we then condemned. Jack must take his observations better, or he will prove an unskillful navigator through the perils of a proslavery voyage.

A correspondent of the Albany Argus writing from Chicago, says that Douglas will carry Illinois by 8,000 majority, and Indiana by 17,000 majority. Lincoln will get Wisconsin by 3,500. The correspondent of the Argus is too modest by half in regard to Illinois, and November will show that he is just about as far astray in his estimate of the vote of Wisconsin. At the late judicial election, Wisconsin went democratic by about 500 majority. "Revolutions never go backward."—Chicago Herald and Times.

Exactly such boasting as this was included in before the Fremont election.—Then, the democracy was just as "exultant" as now, and predicted the gain of republican states just as they do now. They were just as near the truth then as they are now.

"STOCK" AS A REPORTER.—A. F. Pratt, of Waukegan, attended the Monroe meeting as a reporter for the Milwaukee News. He starts off his report with a flaming head—"Four acres of Douglas men in council." "Green county alive for Douglas." "Everybody for Douglas." He says "a special train left Janesville at 10 o'clock with ten passenger cars." "At all way stations," (says this truthful reporter), we received large accessions, and when we arrived at Monroe, the cars were nearly all filled." He pronounces the meeting the largest he ever attended in this state, and made the remarkable discovery that "most of the Germans in Monroe voted for Fremont, while now there is but one Lincoln man among them." Among the "distinguished men present" (says "Stock"), we find our friend Bostwick O'Connor, Esq., of Deloit, and his son, who, by the way, is a perfect "chip of the old block." Also, the Woodie, Dan C. Brown and James Niel of Janesville, and our friend Rockwell of Deloit.

This Indian story-teller is emphatically a fit subject for the state historical society. No relic in its extensive collection would possess half the interest attached to such a rare specimen of truth and candor.

EXULTANT.—The Chicago Herald and Times takes "for true" the report of the Milwaukee News as to the meeting that nominated J. E. Arnold for congress, the 16,000 persons present, and all, and exclaims—"The spirit of democracy in Wisconsin is determined and exultant." So we thought when we saw the ten passenger cars leave this city last Thursday for Monroe. Can't the Herald get up a report of that meeting, and draw from it an augury of the redemption of Wisconsin?

WHAT A DEMOCRAT SAYS.—The Madison Argus says—"The Douglas demonstration at Monroe did not meet the expectation of its friends." Not over one thousand persons were in attendance, and a citizen of Monroe told us yesterday that many of them were republicans, who went for the ride.

A friend of ours, and a strong Douglas man, who was in the "everybody for Douglas" delegation that went from this city, told us that "he did not believe that there were a thousand persons present" at the "four acres" demonstration.

FATAL RAILROAD ACCIDENT.—Last Monday, while the freight train of the Chicago & Northwestern railroad was stopping at the Junction station, a passenger car, Campbell, a tailor by trade, belonging to Watertown, got off the passenger car for some purpose or other, but before he returned the train was in motion, and in attempting to jump on one of the flat cars he missed his hold and fell between them, and melancholy to relate, three of them passed over his body, killing him instantly.—Jeffersonian.

The Milwaukee Sentinel has a very exaggerated and erroneous report by a correspondent of this accident, in which it is stated that the conductor, in answer to a question as to the nature of the accident, replied,—"It is nothing; only a man killed. Go ahead." Such statements ought not to be made without the most absolute proof of their correctness, and if made ought to be corrected when denied, as this is, we understand, by competent authority.

GREEN COUNTY DELEGATES.—A letter to the editors from Albany, says that Walter Wescott and J. H. Warren were elected last Saturday, delegates to the La Crosse convention from the eastern district of Green county.

The valuation of real and personal property in the city of Portage is \$622,731.33. The assessment this year of personal property, as compared with last, shows an increased valuation amounting to \$94,387.35.

Bad doctrine is like bad doctrine.—It puts justice to the test.

SOME OF THE PROSPECTIVE RESULTS OF LINCOLN'S ELECTION.—Should Lincoln be chosen president, there will be a sad and mournful procession of disappointed expectations from the various departments. Protected as Mr. Lincoln would be, from the avalanche of southern applications, which has rolled in so terribly upon every new president since the organization of the government, and no doubt rescued by patriotic resignations on the part of those who declare that his election will dissolve the Union; it will be a most significant spectacle to see men who have grown gray in office—who are, indeed, the checks, stops and obstacles to that great circumlocution system which has become a vast evil here—turning their trombling steps to the homes they so rarely see, and to the avocations they have so long abandoned. We shall then ascertain whether certain men are indispensable in the management of public affairs—whether the Union will collapse at the first balloon, when the gas of the official free-traders withdrawn from Washington, and whether new men and fresh men may not be able to prove that this republic depends upon no particular individual, and that even a change, no matter how drastic and purging it may be, may not save a billious and constipated system.

The venerables who carry gold chains about the necks of the day at 3 o'clock P. M., at about \$1,800 a year apiece, and who have grown gray by duty-desks and in cozy snuggeries, realize the possibility of a new regime. Their dissolution of the Union is their removal from office; their idea of the destruction of the democratic party is the receipt of a yellow envelope enclosing a polite request to leave, and their only idea of a violation of the constitution is the apprehension of the state of Baltimore. On Friday, one of the officers was observed practicing rudeness towards two ladies, whereupon Washington Goodrich knocked him down and administered some well merited kicks.—Richmond Engineer.

FARM MORTGAGES BEING SETTLED.—The Milwaukee Wisconsin of Thursday, contains the following:

In spite of Farm Mortgage Leagues, and Home League newspapers, and the many insurrectionary threats made by the farmers, the fact is that the mortgage on the farm mortgages are being amicably settled up in this city, between the mortgagees and the attorneys of the holders. We hear of one that amounted to about \$800, that was settled in full a few days since. Generally, however, there is a compromise of from 30 to 50 percent. A day or two since another to the amount of about \$800, was settled at 55 cents on the dollar. This is a very small number of the city, which holds quite a number of them for eastern parties, who is instructed to compromise if he can at 50 cents on the dollar. This is the lowest compromise we have heard of, and it is certainly an exceedingly fair one.

EMIGRATION SETTLING WESTWARD.—Hundreds of emigrants are continually arriving in our city, bound for the interior to settle on our uncultivated lands. We learn that many thousands are now on their way from Germany to take up their homes among us. The German emigration to Wisconsin this year will amount to more than that of the last three years combined. The arrivals in New York show that a large majority of the emigration this year is bound for Wisconsin. We learn that our German citizens throughout the state are in receipt of letters from their friends in all parts of Germany acquainting them of the fact that extensive arrangements are now being made in all the German states to emigrate to Wisconsin next year. The news of our abundant crops here reached Germany, and fired this part of the Old World with a desire to come to this land of promise and plenty. We welcome, thrice welcome, to every honest son of Germany.—Milwaukee Sentinel.

The Merfresboro (Tenn.) Telegraph contains the following communication:

Mr. Editor: In your issue of the 10th inst. an erroneous and entirely untrue statement was published to the effect that the name of Breckinridge, somewhat famous just at this time. I was startled to find that the name of Breckinridge, of this name, was a "broken horse." It is not "rather ominous" that a man of this name should be the leader of one wing of the broken and divided house of democracy?

PENNSYLVANIA.—The Douglas state committee of Pennsylvania have decided by a vote of about nine to ten to repudiate the regular democratic electoral ticket nominated before the meeting of the Charleston convention—or so much thereof as is not openly for Douglas and Johnson. They will proceed to nominate a new ticket, selecting their own friends from the regular ticket, and the Breckinridge men. Of course the other faction will be compelled to pursue a similar course. Many things are getting somewhat "mixed" as regards the democratic state ticket.

EXPOSURE OF AN UNPROMISING PREACHER.—The Rev. Byron King left St. George's parish on Wednesday last, and was told of his parishioners. During the evening of that day the delight of the inhabitants was expressed by an immense gathering of people, who formed into a procession, headed by a band of music and several banners, all of which bore inscriptions showing how distasteful to the public mind the mode of celebrating divine worship by Mr. King had been. The foremost banner, which was paid white and printed in large prominent black letters the inscription "Flight of the king. Fall of Puseyism in St. George's parish." The band kept playing from street to street, "Britons never shall be slaves," and other airs, until a late hour, when the vast crowd quietly dispersed.—Now that they have achieved their wishes, no doubt the parishioners will readily cleanse and repair their parish church, which for months past has been in a frightful state, occasioned by the disturbances, and make it fit for public service.—London Times, July 27.

LITERARY.—The New Haven Palladium received the following bill and bill of "composition" which had gone into the waste paper basket:

Editor Daily Palladium: To \_\_\_\_\_ \$10.00  
To 2 Compositions, \$10.00. Received Paid.

I have been delayed in waiting to hear from you and of course at some expense You have held my articles long a time that I send you the Bill I hope I hear from you by tomorrow morning I have composed and written a composition on the Bridal Robe which I consider worth one Thousand Dollars will you be kind enough to send the amt of my bill and coppers of the two compositions Through the Post office.

Very Respectfully Yours,

GETTING THE WORTH OF HER MONEY.—The story is told of Fanny Fern, that stopping at the office of a Philadelphia hotel to pay her bill, on the eve of her departure, she found a charge for the breaking of her toilet set. She admitted the breaking of one piece, and desired to pay for that, and no more. The price of the whole set, however, was demanded, because the "set" was broken. The carriage was at the door—the train about to start. There was no time for discussion, little for thought, but enough for action. Hastily paying the entire demand, and directing the carriage to wait a moment, she went directly back to her room, and taking up the poker, ineffectually broke every remaining piece of the set.

THE EXCURSION FROM MONROE.—About 650 children and citizens of Monroe, with about 200 from Janesville and other places, composed the party that visited our city yesterday. Among the Monroe people were many who have never before had a glimpse of Madison, all of whom expressed themselves highly delighted with our city and its surroundings.

On the arrival of the party at the park, they were greeted by many of our citizens, and the members of the Band of Hope sang one of their cheering temperance songs. The Governor being seated, they were addressed by Gov. Randall, Treasurer Hastings, Deputy Supt. Craig, and Rev. Mr. Fuller of Monroe. The remarks of each gentleman were happy and appropriate, especially those of the Governor, and were well received. Everything passed off pleasantly—and there was nothing said or done that could give offence to even our correspondents.

A fine brass band from Brookfield accompanied the excursionists, and discoursed excellent music.

The excursionists left for home at 4 P. M., in the best of spirits, and well pleased with their visit and reception here, and carrying with them the best wishes of our citizens.—Madison Argus.

Row of the GREAT EASTERN.—At Annapolis, complaints innumerable have been lodged against several of the officers of the Great Eastern on account of the rudeness displayed and the want of proper respect for the feelings of ladies. On Thursday, one of the John Bulls was knocked down on the deck and his head fractured by the blow of a cane in the hands of gentlemen of the Great Eastern. On Friday, one of the officers was observed practicing rudeness towards two ladies, whereupon Washington Goodrich knocked him down and administered some well merited kicks.—Richmond Engineer.

These knocked down and belittled Englishmen will go home with ideas of the "physical" difference of the Americans quite different from some of their stay-at-home brethren.

State elections are yet to be held before the presidential election in November as follows:

In Iowa, on Tuesday, Oct. 5.

Presidential election in all states, on Tuesday, Nov. 6.

IMPORTATION OF STINGLESS BEES.—Mr. A. O. Moore of New York city, who went to Central America last year on account of his health, has just returned from Guatemala, and has brought with him two swarms of the stingless bees common to that country, which he has given in charge of Mr. Parsons of Fitchburg, who will propagate them for the agricultural department of the patent office, which will in due time distribute them, if it is found that they can be kept in any part of the United States.

These bees are of two varieties, one large and one small, and both quite different from their habits from the honey bees common with us. For one thing, there appears to be two classes—workers and queens.—The largest class are about the size of our common bees, the queen being much larger, and while laying eggs appears very clumsy, and unable to fly. The honey is deposited in egg-shaped capsules, more than half the size of honey eggs, fastened to a plate of wax only upon one side, and sometimes arranged quite horizontal in tiers one above another. The honey is considered particularly delicious, but is not stored in as great quantities as with our bees. As these are stingless, they are often kept upon the same familiar terms as paddy's pig, about the house. The hive most commonly consists of a hollow log, and that is hung up in the back of the shanty, or at the door, under the projecting thatch of the roof. It is to be hoped that the experiment of their introduction will prove successful.

EXTENSIVE GAMBLING OPERATION.—The New York correspondent of the Philadelphia Press under date of August 20, says: "The police have been engaged in a long and hard fight with a gambling ring, who have gone into the back yards, and \$10,000 in a night, and walked off with the property. An instance of this kind has just been told us by an inspector of police. A few evenings since, a young man from Virginia, apparently no more than eighteen years of age, went with a friend to the most extensive of the gambling halls in this city. After partaking of the sumptuous supper served at those places, he commenced playing at cards, and in a short time, by boldness and luck won \$10,000. He asked the banker to change his 'chips' for money, which was done, and he went away, not stopping a moment or uttering a word. He has not entered the place since, nor has he been seen in the city. It is understood he left for home in the morning. He is said to have exhibited no trace of agitation, no elation at the tide that set so much in his favor, and he did not appear in his features the peculiar expression so easily detected in the face of the professional player. That this young man will become a habitual gambler can scarcely be doubted. So large a sum so easily won will be sure to lure him on again."

NEW AND DANGEROUS COUNTERFEIT.—E. I. Tinkham & Co.'s Bank Note Reporter Extra, to-day, says that a new and dangerous counterfeit bill has just made its appearance, and so well executed as to deceive any one who is not on a sharp lookout. It will no doubt get a large circulation, as many of them have already been passed on our merchants. Look out for them.—Bank of North America, Superior City, Wiscon.

REPORTED FOR THE DAILY GAZETTE.

BY WISCONSIN STATE TELEGRAPH LINE,  
Office in Union Passenger Depot.

New York, August 20.  
Important intelligence is received from China by way of Europe. The celestial government is said to be in a very disturbed state, owing to distractions. The insurgents are within 14 miles of Peking. The British fleet had not left Hong Kong owing to adverse winds on the day the mail left, but a change had occurred and the fleet was to leave immediately.

CHARLOTTSVILLE, Va. Aug. 18—10 P. M.  
The correspondence between the two conventions shows that all overtures for a compromise were rejected. Senator Mason in his speech to-day declared that the path marked out by Douglas leads directly to the abolition camp. The speeches of Senators Mason and Chandler have been reported for all publication. The greatest enthusiasm prevails. Convention adjourned sine die.

STANTON, Aug. 18—10 P. M.  
The conference committee have been discharged and the proposition for a compromise denounced. A resolution was adopted that the electoral vote of Virginia would be cast for any one who can defeat Lincoln. Great enthusiasm prevails.

CINCINNATI, Aug. 18.  
Last night at 8 o'clock, Charles K. Brown, United States commissioner, was shot dead by George J. Ladwell, of the firm of Alfred Scott & Co. So far as the public mind has been fixed, he has existed between the parties in regard to adjustment of a legal claim. Brown called at Ladwell's house, forced his way into Ladwell's private chamber, a scuffle ensued, when Ladwell shot Brown through the body. He immediately surrendered himself to the authorities.

WASHINGTON, Aug. 16, 1880.  
MR. BRECKINRIDGE DOES NOT WITHDRAW.  
Governor Stevens, chairman of the Breckinridge and Lane national executive committee, to-day received a letter from Mr. Breckinridge of such a character as warrants him in giving an emphatic contradiction to all rumors of his desire to be relieved from his position as a candidate for the presidency.

The committee have just begun sending out an address to the democracy and people of the United States, mainly in reply to the Breckinridge national executive committee. Douglas is the only name mentioned. The Douglas national committee here were quite anxious concerning the action of the straight out Douglas men convened at Harrisburg yesterday. But tonight the New York papers bring the gratifying intelligence that the idea of fusion with the Breckinridges was repudiated.

The Market.  
New York, August 18.  
Flour market dull and prices rather lower. No. 1 (100 barrels) 3.10, No. 2 extra state, 3.05, 5.10 super western, 5.10, 5.25 common medium extra western, 5.20, 5.40 inferior to good shipping brands extra 1. H. Ohio—Canadian flour dull and declining, sales 420 bbls. 3.65, 3.65, 5.00, 5.20 extra. Wheat market steady, with fair export demand. Sales 8000 bushels 1.25, 1.27 winter and red western.

MR. SCHMIDT.—The Cincinnati Gazette says: "Carl Schurz, the celebrated German orator of Wisconsin, is now engaged in filing a series of appointments in Indiana, under the direction of the state central committee. He has completed those in northern Indiana, and is progressing southward as fast as practicable. It is contemplated to give him as many appointments in the southern part of the state, especially in the first, third and fourth districts, where is a large German element hitherto almost untouched by the revolution—the central and northern regions—but now reported to be stirred, and urged to abandon party associations that have compelled them to support a policy directly hostile to their own interests. Mr. Popp, a German speaker of Richmond, has also been engaged to canvass portions of the state, and is now actively at work."

MARRIED.  
At the residence of Mr. Homer Higley, Palestine, Ohio, on the 17th inst. MR. MAXIMILIAN FRIEDRICH to Miss MARY E. WILSON, of Madison, Wisconsin. Many guests were present, and the wedding was a happy occasion for us to enjoy on earth. Her father is remembered to her. Wedding is a new day, but we hope she may never regret having taken that route.
